LEADING EDGE INNOVATIONS PRESENTS

 **urfsight**
GEOTAB®

**WATCH THE POWER A VIDEO TELEMATICS
SOLUTION BRINGS TO YOUR FLEET**

A SEAMLESS VIDEO TELEMATICS SOLUTION BROUGHT TO YOU BY RENOWNED INDUSTRY LEADERS.

Allow your drivers to travel with confidence. Improve driver and vehicle safety, and gain peace of mind with full fleet visibility, both in-cab and on the road.

With over 40 years of combined industry leadership, Geotab and Surfsight technology, powered by Lytx® are the right choice for your fleet. Processing billions of data points a day, Geotab leverages data analytics and machine learning to help fleets improve productivity, optimization, enhance driver safety and achieve regulatory compliance with the Geotab GO device and MyGeotab fleet management software.

Powered by industry-leading machine vision and artificial intelligence, Surfsight AI-12 camera technology automatically helps detect and alert distracted driver behavior and harsh driving incidents in real-time, addressing the leading causes of preventable accidents.**

CONFIGURABLE TO YOUR NEEDS

Adjust camera sensitivity, define livestream and video quality settings, manage bulk importing and more all from the MyGeotab software platform.

SCALABLE

Benefit from a solution that can evolve as your fleet grows. Start with an outward facing camera and build the solution to inward, exterior and rear facing cameras as your needs change.

MAINTAIN COMPLIANCE

Create custom rules specific to your company policies. Monitor speeding events, idling, distracted driving, harsh cornering, seatbelt use, eating, drinking, smoking and more.

PROVIDE REAL-TIME DRIVER FEEDBACK

Capture video for any event triggered by Geotab's rules engine and download to use for purposes like coaching, exoneration and more.

INCREASE SAFETY

Watch a live video feed at any point in the trip directly from MyGeotab. Obtain full fleet visibility while supporting driver safety and compliance goals.

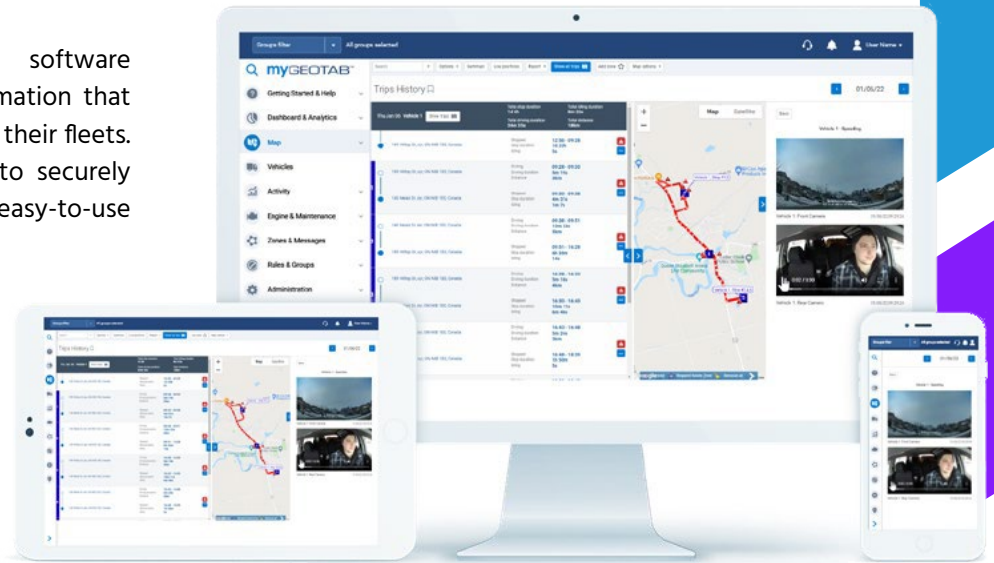

IMPROVE EFFICIENCY

Help preserve your bottom line and reduce claims with 360° video proof.

FLEET MANAGEMENT SOFTWARE THAT EMPOWERS BUSINESS DECISIONS

The MyGeotab fleet management software transforms fleet data into useful information that businesses can act on to better manage their fleets. Leverage the Geotab Camera Add-In to securely manage all Surfsight cameras from one easy-to-use platform.

LEVEL UP YOUR FLEET. IMPROVE OPERATIONAL VISIBILITY WITH ON-DEMAND VIDEO RETRIEVAL.

With a focus on vehicle and driver safety, fleets of all sizes can benefit from this winning solution to help generate notable gas and insurance savings.

UNPARALLELED DATA INSIGHTS

Get the full picture while supporting and improving your fleet by combining Surfsight cameras, powered by Lytx®, with Geotab’s GO device and telematics data insights. The Surfsight dashcam helps alert drivers in real-time with a level of accuracy unmatched by others — meaning drivers listen and self-improve. Not only that, but both industry leaders continually harness and analyze high-quality data to offer you rich, accurate insights. With this level of reliability, you can lead the way to real improvements in fleet efficiency and safety.

WI-FI HOTSPOT

Connect to IoT devices using a built-in camera hotspot.

LIVE VIDEO STREAMING

Available from dual, road-facing and driver-facing cameras, providing real-time GPS insights across-fleet.*

ALERTS AND COACHING

Built-in audio and visual alerts identify risky driving, helping drivers improve their behavior on the road in real time.**

* Subject to available cellular network coverage.

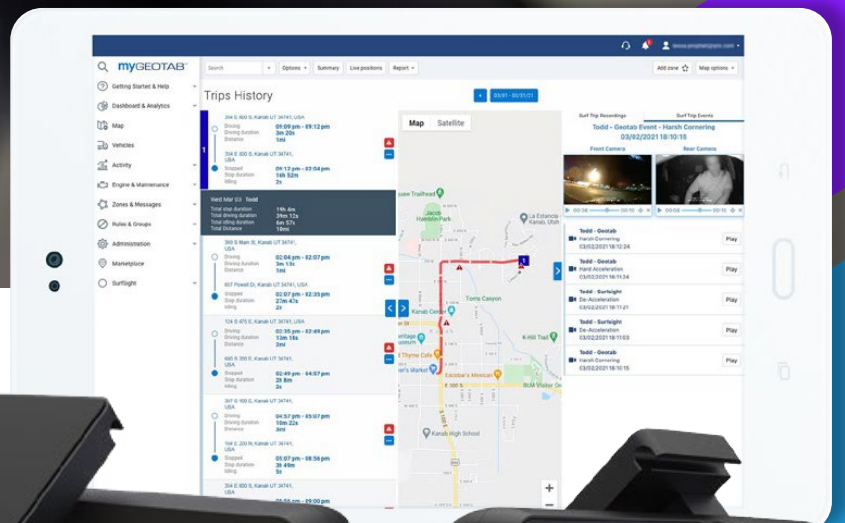

** Lytx MV+AI Technology is a driver aid only. Drivers should never wait for a warning before taking measures to avoid an accident.

Lytx MV+AI distraction detection and alerting technology is designed to respect driver privacy and does not collect, store or use any biometric identifiers or biometric information (i.e., scans of facial geometry) to detect distracted driving behaviors. See www.lytx.com/en-us/driver-information.

THE TIME IS NOW.

Contact us to elevate your fleet performance with this powerhouse video telematics solution.

ORDER NOW VIA THE GEOTAB MARKETPLACE

A curated selection of solutions hand-picked for you to obtain the best fleet performance.

Consistently ranked as the number one worldwide commercial telematics provider by ABI Research, Geotab's innovation and implementation is unmatched by the rest. Order Now is part of the Geotab Marketplace's commitment to deliver the best solutions at competitive prices and offer the most seamless purchasing experience available in the telematics space to date. Purchase this video telematics solution via the Order Now program today.
